

SIMPLIFY YOUR SECURITY STACK

With Cyberattacks on the Rise

You Need Endpoint Protection that Adapts to Your Business

VMware Carbon Black Cloud™ is a cloud native platform that delivers next-generation antivirus and endpoint detection and response without compromising system performance. Unified into one console and one agent, it enables you to operate faster and more effectively, successfully thwarting attacks by:

- Analyzing billions of system events to understand “normal” in your environment
- Preventing attackers from abusing legitimate tools
- Automating your investigation workflow to respond efficiently

Save Time, Lower Risk & Increase Compliance

“VMware Carbon Black is essentially our Swiss army knife. We can do a lot of different things with a lot of information. The overall coverage and overall response times were greatly improved from what we had before. For us it was a no brainer.”
CARL ERICKSON, CISO, JOHNSON CONTROLS

ABOUT THE PRESIDIO & VMWARE PARTNERSHIP:
 Working together, we accelerate our shared customers’ digital transformation journeys. By leveraging our integrated technologies, services, and engineering teams, we design and implement the customized, secure, hyperconverged solutions organizations need to realize better business outcomes in a dynamic and competitive marketplace.

VMware Carbon Black Cloud™ Modernize Your Endpoint Protection
