DRIVING INNOVATION FORWARD

Modernizing an automotive and industrial tech company

SHI AND VMWARE BRING A FLEXIBLE SOLUTION TO A FUTURE-LOOKING BUSINESS.

THE CHALLENGE:
INFRASTRUCTURE THAT WILL FREE TIME AND RESOURCES.

Consolidate and streamline datacenter maintenance and management to lower costs and give IT staff time to innovate

Rightsize under- and oversized VMs to overcome performance issues and wasted resources

THE SOLUTION:
SECURE, HASSLE-FREE HYBRID CLOUD ADOPTION.

VMware Cloud on AWS, a jointly engineered service that brings VMware's enterprise-class Software-Defined Data Center software to the AWS Cloud, with optimized access to AWS services and robust disaster protection

Strategic consultation from SHI's team of proven experts to identify requirements and end-state sizing, and provide onboarding services

THE RESULTS

- ✓ **Migrated ~300 VMs** from multiple datacenters into VMware Cloud on AWS
- ✓ **Eliminated** hardware and software maintenance activities on migrated VMs
- ✓ **Freed IT team time** via VMC on AWS managed-services offering
